## NEW C. C. BOOKS FOR CLASSES ARRIVE

A number of interesting books has been received by Mr. Smyser for use in the Contemporary Civilization classes.

Among those dealing with religion is "Changing Backgrounds in Religion and Ethics" by H. Wilden Carr, Professor of Philosophy in the University of London, in which he takes the stand that the problem of life must now be interpreted in terms of energy and vitality rather than in terms of mechanism.

"Formation of the New Testament" by Edgar Goodspeed gives the geographical influences which have played a part in the putting together of the Testaments. He shows that the New Testament is the result of many short steps rather than a few long ones.

"Scriptures in the Making" by Abigail Pearce gives a story of the making of the Bible by a teaching of English literature and portrays the romance of early Hebrew and early Christian writers. She shows that the appreciation of beauty and the spiritual significance of the Bible is augmented by the labors of archeologists and linguists.

"Social life Among the Insects" by William Morton Wheeler, Professor of Economic Entomology of Harvard University is the result of research among social insects, especially wasps, bees and ants. It gives interesting details on the extraordinary development in their control of problems of food, protection (development of warrior class), social heredity, etc.

"Stories in Stone" by Willis T. Lee is an interesting collection of stories dealing with the romances of rocks as written plainly for the geologist.

"Youth Movement in China" by Tsi C. Wang, Ph. D., is a biography of Chinese youth and throws light on many of the problems before the nation—political, economic, education, religious, social.

## PLEDGES CHOSEN FOR SCRIBULUS

New pledges were elected to Scribulus Club at a short meeting Thursday evening. They are: Roy Bryson, Peggy Eastman, Grace Barber, James Mullens and Roswell Wood.

Louis Bergan was elected vice-president and Mayme Wells is again secretary-treasurer. A new officer was created, that of publicity manager and Joe Iles chosen to fill this place.

Harry Weimer, the new advisor of the club was presented.

A meeting will be held Thursday, April 14 promptly at 7:15. Every member is expected to be present, according to the president.

Campus day another issue of the famed Wildcat Whiskers will appear and the club members are forming plans for this at present.

## Kappa Pi Holds Big Initiation

An interesting initiation was held at the Lower Bridge, Saturday morning, April 9, by the Kappa Pi Society, in the form of a "breakfast hike."

Due to a misunderstanding, the initiates, who formed one group, mistook the upper Bridge as their destination and were very disappointed not to find their breakfast waiting for them. Realizing their mistake, they finally joined the rest of the group at the Lower Bridge at nine o'clock to enjoy a hearty breakfast.

After the usual rites of taking oath, original stunts were performed by the members.

## MYSTERIOUS "66" REVEALED AT PLAY

"A Pair of Sixes," the high school production playing at the Ellensburg Theatre Thursday and Friday night was heralded as a success, both in the dramatic and pecuniary light.

The comedy situation revolving around a gentleman's disagreement and the sportsman's way of settling it by dealing a hand of poker, was well supported by the cast. Complications ran rampant but the inevitable right ending was finally effected to the satisfaction of the audience's sense of fitness. Those who saw the play commented on the smoothness with which it was presented and the adaptability of the cast.

### ANNOUNCEMENT

An agate hunt is to be staged in the near future. Mr. Beck will make a further announcement later.

## S. O. Staff All to Peppy Party

Two hours brimful of fun for everybody in school who wants it will be had Wednesday evening, April 13 from 9 to 11 o'clock with the compliments of the S. O. Staff.

"Come on, let's go" says Arlete Eller, who has charge of the advertising of the affair. Ten cents is the only requirement for entrance, to cover the expenses of the "eats" and Helen White, chairman of the eats committee promises that they will be mighty good.

"What are we going to do?" Lucille Laidlaw, who is in charge says everything will be done from measuring your grins to witnessing a hearthrobbing and realistic search by an eminent personage of W. S. N. S. for a bride. "A real party where we do everything but dance, and maybe that," says Miss Laidlaw.

People who want a good time are requested to see some member of the staff and sign up. Or if that is impossible, come Wednesday evening at nine with your ten cents, according to Miss Eller.

## GLEN HUGHES TO LECTURE APRIL 27

Poet, playwright, athlete, all three are embodied in Glen Hughes, University of Washington English Professor who will lecture here before C. C. and open assemblies on April 27, 28 and 29.

Mr. Hughes, although one of the younger members of the faculty, is a devotee of Arts literary, having done research work in eastern circles and in London and Paris.

Several plays by Glen Hughes are on the market as well as a book of verses "Broken Lights."

Professor Hughes is possessed of a whimsical turn of mind which asserts itself pleasantly throughout his lectures and should make him a favorite with students.

The home nursing class for this quarter has increased its enrollment to fifteen. It is progressing rapidly and the members are being benefitted by it according to all reports.

## BASEBALL LINEUP NOW TENTATIVE

Many Turn Out for Same Places; Competition Strong; Lineup Not Sure.

Coach Sandberg's baseball players are fast rounding into shape. A tentative lineup has been chosen but with several men of nearly equal calibre turning out, everyone will have to hustle if he wishes to see his name in the box scores.

As this is the first year for baseball in this institution, some trouble has been experienced in scheduling games but plans are under way for inter-normal contests. Ellensburg and Cheney will play first and the winner will play Bellingham during the Tri-normal track meet.

The battery men are Coach Sandberg's biggest worry at present but they may come through all right. Gabriot and Donaldson show signs of being good material for first string duty. Roth will also work on the mound as will Galkowski, who has been going good in the outfield. Cleary may help out as catcher.

McMacken is holding down first base at present. Bolton leaves little to worry about at second, being a good fielder and a smart hitter who is in the game all the time. Cote and Walgren have been waging a merry battle for the hot corner position. Walgren holds the edge at present and Cote is being used as a relief outfielder. Lind looks good at short and is expected to hold this important place down in good style.

The outfielders are perhaps having the hardest time to cinch a berth. Material for these positions is more plentiful than any of the others. As a result everyone is hustling trying to catch the coach's eye. Those working with the regulars at present are Sterling, Connors, and Cote. Ruble who has been playing regular is out with a bum leg which he received while sliding. He will probably be back in the lineup next week as his injured limb is coming along nicely. Galkowski and Cote cannot be counted out as yet and may break into the lineup at any time.

Without any authority and by way of hazarding a few lines of type we will venture a guess on how the batting order for the first game will look: Connors, c. f.; Ruble, r. f.; Bolton, 2 b.; Lind, s. s.; Sterling, 1 f.; Walgren, 3; Mc Macken, 1b.; Donaldson, c.; Gabriot, p.

Miss Frances Skinner, director of the home economics department, will be in Spokane Friday, to speak before the health section of the Inland Empire. Her topic for discussion is "The Home Economics Department in the Health Program of the School."

## Art Club Elects New Officers

Election of officers for the spring quarter was the main business of the Art Club at its meeting Tuesday evening, April 5. The results of the election are: President, Touraine Archer; Vice President, Lyman Nixon; Sec.-Treasurer, Sammie Anderson; Business Manager, Adra Vickerman.

Plans for inducing new members to join the club were discussed after the business meeting.

Miss Pauline Johnson displayed the pieces of art which have been sent to the Inland Empire Teachers' Association exhibits. Included in the display are samples from the training school and the various art classes.

## Beautiful Florida State College for Women Wins World-Wide Recognition for Its Work

BEAUTIFUL DINING HALL SEATS ONE THOUSAND STUDENTS

COLLEGE FOR WOMEN

The wonderful educational progress of the Southern states has kept pace with the advances made by the new South in other directions. An example is to be found in the beautiful Florida State College for Women at Tallahassee, which, in 1924, was placed by the Association of American Universities on its approved list colleges and universities. No State college for women has had this distinction heretofore. Its students and graduates have standing in all the great universities in the world, and the work of the college is officially accepted as equal to any of the great educational institutions of the world.

The Florida State College for Women offers every advantage of a great state institution, combined with that care for the health, happiness, and spiritual welfare of its students which is characteristic of the best privately endowed women's colleges.

Not a few students have been recruited from the homes of winter visitors in Florida, on the East Coast, or other resort sections, who are glad to have their daughters

near at hand and still able to enjoy educational instruction equal to any in the world, and in the most varied curricula ranging from major studies in the classics and mathematics to one of the best Domestic Science Departments. One of the leading magazines after an investigation came to the conclusion the department was the foremost of its kind.

The college is set in beautiful grounds on stately hills. Practically all of the buildings have been constructed in the past 16 years in predominating Tudor architecture. Between 1,300 and 1,400 students attend the college which has its own hospital, bank, dairy farm, postoffice and ultra modern kitchens. 1,000 students can be seated in the main dining hall at one time. Tallahassee, before the Civil War, was a seat of southern wealth and culture, and many improvements have been added.

The dormitories are conducted with the freedom which prevails in a home of refinement. At the same time a positive religious atmosphere is encouraged by the faculty; the young women are encouraged to observe a religious life

in the denomination to which they belong. A number of the Greek letter sororities have attractive houses. Receptions and other social affairs, literary, musical, and dramatic clubs, the great inter-class basketball game on Thanksgiving and commencement week are among the varied recreations. Students who leave the college grounds at night must always make preparations before hand. If it is only to attend a picture show or something of the sort, they arrange to go in groups. If it is a matter of going riding arrangements are made in the dormitory office and a chaperon is required. In other words, the regulations are such as would be required in the best homes anywhere.

Physical exercises under the direction of an instructor are given three times a week. A highly trained dietician of long experience has supervision of the dining room and kitchen; each dish is sterilized before it comes on the table. The climate is mild and healthful, and encourages an outdoor life; practically all students gain weight immediately after they enter the college.

### "OUTWARD BOUND"

It is useless to urge students to see this extra ordinary play with its unusual presentation because every person is on tiptoe to seize this wonderful opportunity if it is at all possible.

But it is better to say:

"Get out your imagination and oil it up."

"Open up your mind and be ready to get from the play every bit of mystery, imagination, careful thinking and inspiration there is in it for you"

"Be sure your receptive mechanism is in good order."

### VALUES

Sir Launfal searched the whold world over for the Holy Grail and then found it in his own front yard. The really fine things of life are all around us. Beauty is omnipresent yet we are all engaged in the struggle for the grosser things of life.

The birds sing, the sun shines, the flowers bloom and the whole world is awakened. Spring bursts forth in all its splendor!

But we—poor beauty blind mortals—groan about outside reading, blue books and examinations.

New Jersey police are searching for a squirrel man who lives in trees and frightens women and children. We suggest that they send for Clarence Darrow. This may be the missing link.

A French scientist predicts that before long the average man, by gland operations will live 125 years of active life. Probably fifty years from now people will be changing glands just like we change tires.

## A Clogging Class

One, two, three, hop, brush, tap, counts Miss Allens, while about ten students laborously hop, brush, tap, trying to learn the fundamental clog step, which is found to be much harder than it looks.

strictly clogging class, open to both men and women is something new in W. S. N. S. as so few girls signed for folk dancing this quarter. Miss Wilmarth decided to give the men interested in clogging a chance to learn. So far the turnout of men is few. We are wondering if they are afraid of the girls or the steps.

### THE GOLDEN WAY

(Camp Fire Way to Service.)  
There'll be place in your heart today,  
If you will trod the golden way.  
The sunshine is free;  
It lightens the way,  
It brightens the day.  
Oh take up the song and travel along  
The sunshiny, glad golden way.

Mr. Fish to wee Frosh—Why does an Italian wear feathers on his head?  
Bright Frosh—Why, I guess to keep Wigwam.

"Say—if I'm stuck on you, how can we ver part," said Roy Harris to that certain party.

Web Leach—That's funny!  
"Bim" Taylor—What?  
Web—Oh, I was just thinking.  
Bim—Ha! ha! That is funny.

A hand on a door-bell.  
A boy ready to run,  
A bucket of water,  
Ain't sneak day fun.

## Ponce De Leon Again Discovers Florida in Historic Pageant: Pretty Maid His Queen at Spanish Ball at St. Augustine

One of the most picturesque celebrations in the country is the great annual Ponce de Leon celebration at St. Augustine Florida. Hundreds of people take part in re-enacting the discovery of Florida in 1512 by the aged seeker after the Fountain of Youth, the founding of St. Augustine by Pedro Menendez de Aviles in 1565, the sacking of the city by Sir Francis Drake, and other historical episodes.

This year the date of the pageant is April 6, 7 and 8th.

In brilliant color the Ponce de Leon Celebration ranks with the famous Mardi Gras in New Orleans. The participants wear the picturesque costumes of the days of chivalry. Soldiers, nobles, and Spanish grandees in silks and satins and glittering arms, with feathered hats and pikes and broadswords have as a setting the historical background of St. Augustine, oldest city in the United States. Huge Fort Marion, which covers more than five acres of ground and is the most impressive example of mediaeval fortress architecture to be found in the

TREASURY STREET,  
ST. AUGUSTINE,  
NARROWEST STREET IN U.S.

Western hemisphere, is the principal focus of the re-enacted historical dramas.

The arrival of Ponce de Leon and his cavaliers in his quaint caravels, the ceremony of blessing the land, the subjugation of the ancient village of Seloe, the storming of Fort Marion are features of the lively celebration.

Each year by popular vote a

queen is chosen to lead the Spanish ball, with Ponce de Leon, and she holds her sway by suffrage as the prettiest girl in all the town. Photos show some of the past queens of the Ponce de Leon Celebration, Miss Catherine Canova in 1923, Mrs. Edith Powers Gardner in 1924, Mrs. Lucille Baya Shy in 1925, and Miss Virginia Herbsman in 1926.

## MORONI OLSEN TO GIVE "OUTWARD BOUND"

Mysterious Unusual Play Accepted Enthusiastically by All Audiences

"Outward Bound," often called the story of people who are dead and don't know it, is to be presented Thursday evening, April 14 at the Ellensburg Theatre by the Moroni Olsen players. This cast has made itself beloved to Normal Students through it's presentation of Barrie's play "Dear Brutus" last fall.

"Outward Bound" by Sutton Vane has been immensely popular since its first appearance on the English stage. Heywood Brown of the New Your World, says of it, "Touched with a most extraordinary imagination. Among the most interesting and moving things which has happened in the theatres while we were present."

The action of this humorous character study takes place on a mysterious ship. The passengers, a drunkard, a clergyman, an unscrupulous business man and "Scrubby," the "halfway" are outward bound for Heaven and Hell.

The Moroni Olsen cast has been in Ellensburg five times in two years, and are looked forward to by the students with interest.

## DR. DEVINE SPEAKS TO STUDENT BODY

"Mexico is the most important nation for us to understand. The acid test of good faith in foreign policy lies in the Mexican situation." Such was the contention of Dr. Edward P. Devine in an all school assembly Monday at three o'clock.

Dr. Devine spoke on the Turkish situation. The Ottoman Empire began about the time Columbus discovered America. "Young Turkey—Western in attitude but uncompromising in government. The Turk is generally spoken of as The Sick Man of Europe.

"Get your eyes on Turkey—get the Turkish point of view. By so doing we enrich our citizenship and understand the advantages of organization" says Dr. Devine.

The situation in China is to be taken up in the next lecture which will be given Wednesday, at three.

Special lectures are also being given for health, education and contemporary civilization classes. The first took place at 11 o'clock Monday, when Dr. Devine spoke in the subject of health. Tuesday at nine o'clock the subject was concerning modern civilization.

**Home Study Opens College Education to Working Adults**

**COLLEGE DAYS**

with those of the foremost universities and technical schools. Many universities use home study school text-books. Some of the most important contributions to the cause of education have been made by adult education home study schools, through making it possible for workers who from necessity missed schooling to receive specialized training at home.

"The National Home Study Council is purely an educational organization. We intend to cooperate with the National Education Association, the United States Bureau of Education, the Carnegie Corporation, and the American Association for Adult Education."

The convention was attended by representatives of thirty-eight home study schools, and by representatives of state universities and scientific schools.

Headquarters of the National Home Study Council are in Washington, D. C. Officers besides Mr. Weeks are: vice-presidents, J. G. Chapline, and R. H. Smith, of Chicago, and Fred M. Randall of Detroit, Mich; secretary-treasurer, Clifford Lewis, and Director J. S. Noffsinger. Ph. D., Washington, D. C.

**CHICAGO**—Home study schools in the United States which maintain the high educational standards of the best schools and colleges are to be recognized as accredited institutions when the plans of the National Home Study Council are carried to completion. It was announced here at the first convention of the council by R. E. Weeks, of Scranton, Pa., president. "Four times as many adults in

the United States are enrolled for home study courses as there are students enrolled in all the resident colleges and universities in the country," said Mr. Weeks. "Protection of the public requires the establishment of recognized educational standards in the home study institutions."

"Many of the home study schools now have the soundest and highest educational standards, identical

**SKATING TOURNAMENT**

Blocked streets, dismissed recreation classes, and cheers marked the first roller skating tournament of the season. Regardless of the bumpy, sloping pavement, borrowed skates, entered into the contest with a vim.

The first event, a 400-foot dash for girls was won by Virginia Malloy, who added to the excitement by taking a spectacular header, scattering gravel far and wide.

In the rest of the girls' events Jessie Rogers showed her ability in speed and in skating backwards without any mishaps. Betty Crosby, Isabel Crow and Dorothy Chandler furnished Miss Rogers some keen competition.

As a grand finale four boys raced around the parking. Glen Mc Neilly leaped over the line first with Luck a close second, who successfully cleared the fallen body of his competitor, Bill Davis.

The events were: 400-foot race for everyone; backward race for girls; fancy skating contest; 1000-foot race for girls; 1000-foot race for boys.

**WALGREN HURT AT PRACTICE**

A fractured ankle, suffered by Jess Walgren Tuesday afternoon, caused a cloud to form over the bright prospects for a championship team.

It is very doubtful that Walgren will be able to play again this season. However, Cote, the only other contestant for third base is determined to fill Walgren's place to the best of his ability. With Cote at third, coach "Sandy" still has hopes of bringing home the second championship this year.

**NEW CHIMNEY  
GOES ON DUTY**

The new chimney is completed, the breeching connections from the old breeching to the new chimney are finished and the chimney is now doing its duty by sending forth carbon dioxide and other waste products of combustion.

The breeching connections presented a real problem. It was necessary to cut through the old chimney to make the connections. A temporary smoke stack was erected at one end of the heating plant to carry off the smoke while the breechings were connected. The new chimney which is 130 feet high, is composed of red brick with a white decorative band near the top. The decorative band, of white tile lends distinction and beauty to what is usually considered a common, ugly necessary construction.

A manufacturer predicts the sale of 21,000,000 additional radio sets in the United States during the next few years. They will have to be portable ones, however, for you would never get that many people to stay at home and listen to them.
